Re: Approval to pump out sand pit to Grand Calumet
River to allow development of sanitary landfill
site, Lake County, Indiana

Dear Mr. Nanini:

Your approval issued by the Stream Pollution Control Board on May 15, 1973 for construction of the above mentioned project, indicates that you will be constructing in the floodway of the Grand Calumet River.

This is to advise you that pursuant to Chapter 318, Flood Control Act, as amended, (IC 1971-13-2-22), any construction in a floodway, which would include your proposed project, must also be approved by the Natural Resources Commission before construction is started.

Two standard application forms and one set of instructions are enclosed for your use. One notarized application with details of the project must be submitted to this office.

If you have any questions, please contact us.

Very truly yours,

Victor H. Wenning, PE
Assistant Chief,
Division of Water
